

MAT in Early Childhood Unified Residency

The WSU MAT-ECU program reflects what is currently known about best practices in early childhood teacher preparation. With an emphasis on urban schools, the program prepares teaching residents to meet the needs of children with and without disabilities in varied settings. The MAT-ECU teacher residency program was developed using a PDS philosophy that centers on shared responsibility for teacher preparation between universities and schools as well as a shared responsibility for student learning. It involves students working in classrooms as paraprofessionals while working on their graduate degree and initial licensure.

Admission

The program is limited to individuals who have:

1. Completed at least a BA/BS degree from an accredited higher education institution prior to entry into the program.
2. For full admission, a GPA of 3.000, or a GPA of 2.750 to 2.999 to be admitted on probation.

Applicants to the MAT ECU residency program must pass a criminal background check that they obtain at their own expense. Information regarding the approved background check service provider is available from College of Education Advising.
