

Certificate in Business Analytics

The certificate in business analytics is aimed at providing students with exposure to a variety of data management approaches, analytical and statistical methods, and analytics tools used in the industry to run and manage analytics programs. The courses provide extensive exposure on concepts, tools and applications in the domain of analytics. In addition to providing hands-on training on various tools, the certificate in business analytics imparts skills on creating and maintaining a culture of evidence and fact-based decision making.

Program Requirements

The certificate requires satisfactory completion of four of the following 3-credit-hour courses for a total of 12 credit hours.

Course	Title	Hours
