

WSU Foundation and Alumni Engagement

Telly McGaha, *President and CEO*

Our mission is to elevate, celebrate and advance Wichita State University through engagement and philanthropy. We do this by living our core values of integrity, collaboration, excellence and service in all our interactions with Shocker Nation.

Established in 1913, the WSU Alumni Association coalesced around a dedicated group of alumni led by Harry Shuler for the purpose of creating a Shocker community of university supporters. In tandem, the WSU Foundation, which was founded in 1965, has championed private support to advance the mission and vision of the university.

With a combined 176 years of experience, the two organizations united in 2022 to create a single alumni-and-donor serving organization optimizing support of Shocker Nation through combined philanthropy and alumni engagement efforts.
