

FYEG - First-Year Seminar ENGR

Courses numbered 100 to 299 = *lower-division*; 300 to 499 = *upper-division*; 500 to 799 = *undergraduate/graduate*.

FYEG 102. First-Year Seminar: Engineering (3).

The First-Year Seminar course is an introduction to the university as well as to general education at Wichita State University. Expect to explore a broad topic from a variety of different disciplinary perspectives as well as join a community of academic learners whose responsibility it is to ask questions, explore and exchange ideas, and become effective critical thinkers. Additionally, students have the opportunity to engage with fellow students and WSU faculty and staff by participating in activities aimed to further connect them to WSU. Students enroll in the lettered courses (e.g. 102A, 102B) with specific topics in the titles rather than in this root course.
