

Certificate in Global Competency

The certificate in global competency is an interdisciplinary undergraduate program housed in Fairmount College of Liberal Arts and Sciences. The objective of the certificate program is to give students a multidisciplinary education that will augment their major fields of study with the introductory background knowledge:

- To be a contributing member of globally diversified teams, and
- To understand the global diversity and the cultural, social, historical and international context of their professional activities.

Employers of WSU graduates, particularly those of engineering, business and other professional disciplines, and WSU's corporate partners have often stated the need for employees who can work in global teams, where teams are made up of members from different cultures, speaking different languages, following different religions and living in different countries. These teams develop, design, produce, deploy and maintain products and services for all consumers and customers.

Completion of this undergraduate certificate program allows WSU students to acquire a basic understanding of global perspectives and cultures for augmenting their disciplinary education.

Expected Learning Outcomes of the Global Competency Certificate Program

- Demonstrate understanding of the complexity of another culture in relation to its history, values, politics, communication styles, economy, gender, or beliefs and practices.
- Analyze connections between the world views, power structures and experiences of multiple cultures to address a global problem.
- Examine the historical and contemporary roles, interconnections and differential effects of human organizations and actions on global systems within the human and natural worlds.
- Plan and evaluate more complex solutions to global challenges that are appropriate to their contexts using multiple disciplinary perspectives (such as cultural, historical and scientific).
- Initiate and develop interactions with people from different cultures. Recognize personal bias when interacting with culturally different others.

Admission

Students seeking the interdisciplinary global competency certificate must be admitted to WSU

- In a degree program, or
- In a nondegree status.

International students will not be issued an I-20 for certificate programs alone. They may obtain a certificate only while concurrently pursuing a WSU degree.

Area professionals may be admitted as nondegree bound as long as they meet all WSU admission requirements.

Current WSU graduate students may also complete this certificate program but will not receive graduate credit for the courses taken as part of the certificate requirements.

Transfer hours are usually not acceptable for certificate programs. Students interested in the certificate program are encouraged to meet with their respective college/department advisors and/or visit the

WSU certificates webpage (<https://wichita.edu/academics/majors/certificates.php>).
