

BS in Exercise Science

Admission

Students seeking admission to the BS in exercise science program must have an overall and WSU GPA of 2.000.

Program Requirements

All students enrolled in exercise science **must** hold and maintain a CPR/AED certification. First aid certification is recommended but not required.

A minimum total of 120 credit hours is required for the BS in exercise science and includes the 56 credit hours of major courses that must be completed with a minimum grade point average of 2.000. In addition to meeting the requirements of the WSU General Education Program (<http://catalog.wichita.edu/undergraduate/academic-information/general-education-program/>) and the requirements of the College of Health Professions, students in the BS in exercise science must take the following courses:

Course	Title	Hours
General Education		
Select courses to meet General Education requirements ¹		34-35
Required Major Courses		
PHYS 213	General College Physics I	5
CHEM 211	General Chemistry I	5
ID 300	Human-Centric Design Thinking	3
EXSC 113	Introduction Exercise Science	3
BIOL 223 or HS 290	Human Anatomy and Physiology Foundational Human Anatomy and Physiology	5
EXSC 302	Administration in Exercise Science	3
EXSC 313	Exercise and Sport Nutrition	3
EXSC 328	Kinesiology	3
EXSC 440	Concepts in the Prescription of Exercise	3
EXSC 461	Biomechanics of Human Movement	3
EXSC 470	Experiential Fitness Practicum in Exercise Science	3
EXSC 490	Physiology of Exercise	3
EXSC 495	Internship in Exercise Science	8
EXSC 541	Seminar in Strength and Conditioning	3
EXSC 762	Statistical Concepts in Human Performance Studies ²	3
Open Electives		
Select enough electives to reach 120 credit hours ³		29-30
Total Credit Hours		120

¹ Required major courses may also count towards General Education requirements. Students will need to select additional electives to reach 120 credit hours required for graduation with assistance from an advisor.

² CESP 704 and STAT 370 can substitute for EXSC 762.

³ Select additional exercise science electives, electives and general education credits. Please consult with an advisor for options.

Departmental Honors Admission

The public health sciences department's honors goals for the exercise science major offers students an interdisciplinary, collaborative and applied learning experience. The exercise science honors track is composed of coursework and a faculty guided scholarly project. Interested students may apply to the exercise science honors track at the same time as they declare the undergraduate major. A minimum GPA of 3.500 in all exercise science coursework is required at the time of application. Applicants must also submit a letter describing their goals for participating in the exercise science honors track and obtain a faculty member's approval to work with them on the honors scholarly project at the time of application.

Departmental Honors Requirements

Students admitted into the exercise science honors track must complete requirements while maintaining a minimum GPA of 3.500 in all exercise science coursework to receive the departmental honors designation on their diploma and transcript. Majors who choose to participate in the honors program are provided with the opportunity engage in an enriched scholarship and research experience at a level far more intensive than is possible in a typical undergraduate course.

- Complete additional honors assignment/project in four exercise sciences undergraduate courses (12 credit hours) below. Contact the department for permission to enroll. Honors course options can be added to any of the courses below:

Course	Title	Hours
EXSC 313H	Exercise and Sport Nutrition Honors	3
EXSC 440H	Concepts in the Prescription of Exercise Honors	3
EXSC 461H	Biomechanics of Human Movement Honors	3
EXSC 490H	Physiology of Exercise Honors	3
EXSC 541H	Seminar in Strength and Conditioning Honors	3

- Complete an honors portfolio. Students will maintain an on-going portfolio that will include class assignments, activities, reflections and scholarly projects completed while participating in the exercise science honors track.
- Students will actively participate in exercise science facilitated meetings with other honors students.
- Be a participating member of the WSU Exercise Science Student Organization (ESSO).
- Complete a scholarly research activity with an exercise science faculty member during the final year of the program and give a public presentation on some aspect of the project during the final semester. Enrollment in EXSC 595H Human Performance Research Honors (3 credit hours) is required. Contact your exercise science faculty research mentor for permission to enroll.

Departmental Honors Applied Learning

Students in the departmental honors in exercise science are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing EXSC 595H Human Performance Research Honors and giving a public presentation on some aspect of the scholarly project.

Applied Learning

Students in the Bachelor of Science in exercise science program are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by successfully completing EXSC 495 Internship in Exercise Science.
